

Curriculum Intent: French

It is our intent to create the very best linguists, ensuring all of our pupils have mastered the necessary language skills and knowledge in order to engage with the world in its widest sense. We also aim for learners to become socially responsible citizens of the world by exploring and engaging with a new and different culture.

Educate	Social	Responsibility	Citizen	Future
It is our intention to ensure that by the end of our children's primary education, they have acquired an understanding of both spoken and written French, confidence to speak in French with others and know how important other languages can be in their future.	Use language skills, receptively and productively, for communication in the real world, for practical purposes, for their immediate needs, interests and beyond and to express and justify opinions	We aspire to expose our pupils to a broad and ambitious Modern Languages curriculum, which is rich in skills and knowledge, develops self-efficacy, kindles curiosity and promotes diversity and tolerance of other cultures.	It will enhance their future career opportunities and enable them to connect with other cultures and build tolerance.	Learning a new language will improve children's problem solving and creativity skills and learn within a coherent and progressive framework.
